A well known Des Moines woman after suffering miserable for two days from bowel complaint, was cured by one dose of Chamberlain's Colic, Cholera and Diarrhea Remedy. For sale by Chas. C. Davis.

## WHEN THE SHOW COMES TO TOWN.

Amusement seekers and show goers of Mt. Vernon will have the treat of their lives Sept. 3, when the famous Sun Brothers' World's Progressive Shows appear here. Nothing better has ever been seen in this section.

Every dream of boviday will be realized. The peanuts, the carmel, pink lemonade, the clowns and the smell of the fresh shavings, the whole good atmosphere of the tented show will be there. Every act with the show this season is entirely new, novel and of an ultra-moritorious character. A noteworthy engagement this year is the positive appearance at each performance of the famous Electrique De Kamos, a quintette of high air equitation artists. Did you ever see a whirling Dervish? This act is doubly discounted by the Electrique De Kamos. They float through the air like winged seraphs and whirl through the empyrean like whirling dervishes, and all that sustains them is wires gripped in their teeth. It is indeed one of the most amazing and superbly ornate dizzy height performances ever conceived.

Nearly one hundred performers take part in the big programme and are all artists of extraordinary ability. In the wild beast department will be seen many unique strange and distinctively novel specimens of the animal kingdom and zoologic creation, and all are exhibited in a classified manner and explained by competent keepers and lectures. Seats are provided for all patrons and the tents are well ventilated and commodious.

Courteous ushers are in attendance to show visitors to eligible seats. Courtesy being a red letter rule with the Sun Brothers' Shows. The big aggregation will arrive here by special train, and will spread their tents on the grounds at Mt. Vernon, on Dr. Lovell's lot. White addition on Tuesday Sept. 3rd.

MEMBER OF  
KENTUCKY PRESS ASSOCIATION

WELCOME

The Mt Vernon Fair which is the first ever attempted since the town was founded, 102 years ago is now on. We went to press this Wednesday morning two days ahead of usual publication day, so as to be enabled to distribute a thousand extra copies of the SIGNAL on the Fair grounds, during the day extending a thrice hearty old time welcome to every one of our visitors, exhibitors and all others in and about the grounds and inviting them to come to every one of the fairs as well as requesting those who failed to come on first day to make up for lost time by attending the last two days. All arrangements are fully completed, as can be seen by a glance over the grounds; side attractions galore are here in full force and effect. Forty one head of fine horses are here from various counties and have been entered for exhibition in the various rings. Everything is in tip top shape. The directors and stockholders, numbering 150, Rockcastle citizens, are enthusiastic over the outlook and feel confident that the fair this week will be a pace maker for future exhibitions to follow. The floral hall is one of the attraction features of today and a very large attendance is assured. This has been designated as homecoming week and a large number of people are already here from other counties and states to meet relatives and friends at the fair, renew old friendships and enjoy the various attractions furnished.

Our citizens throughout the country should keep in mind that our sister town, Brodhead, the originator of fairs in Rockcastle, will hold their three days' exhibition next week, beginning on Wednesday the 14th (August). Like Mt. Vernon, the Brodhead Fair managers have spared neither pains or expense in making great preparations for the banner fair of all the exhibitions they have ever held. Their catalogs show liberal premiums and their free attractions are many and interesting, procured at big expense for the entertainment of the visitors. Mt. Vernon promises her usual quota of patrons, and then some knowing they will get more than their money's worth in the entertainment and enjoyment one always gets at the Brodhead Fair and among that 'own's clever people.

**FLYING MEN FALL**  
victims of stomach, liver and kidney troubles just like other people, with like results in loss of appetite, backache, nervousness, headache, and tired, listless, rundown feeling. But there's no need to feel like that as T. D. Peebles, Henry, Tenn., proved. "Six bottles of Electric Bitters" he writes, "did more to give me new strength and good appetite than all other stomach remedies I used." So they help everybody. Its folly to suffer when this great remedy will help you from the first dose. Try it. Only 50 cents at Chas. C. Davis.

Cull McClure has gained such a reputation by his many peculiar escapades, hair-breadth escapes and remarkable adventures that to attend the fair under ordinary circumstances he would attract too much attention from other exhibits and attractions on the grounds, so he will go in disguise. The first party detecting the old culprit in disguise will be rewarded with a free ticket for a balloon trip or a package of popcorn popped on the grounds.

Ramey—"What is H. B. crying about?"

Peddy Bear—"Jack swiped his candy."

Ramey—"But how is it you have his candy now?"

Peddy Bear "Sure I got the candy now, I'm H. B.'s lawyer."

### TO CLEAN UP NEW YORK

### Hold First Primary

PROMINENT MEN OF CITY TAKE  
STEPS TO INVESTIGATE  
CONDITIONS.

Will Spare No Expense to Expose All  
Connection Between Police Department and Underworld.

New York.—More far-reaching than the Lexow investigation, and more cleansing than the work of the committee of fifteen, an organization was formed here to investigate, without regard to expense and with the aid of the best lawyers and detectives obtainable, the alleged corrupt alliance between the police department and the underworld.

A call for the organization of a great nonpartisan, nondenominational citizens' committee was sent out, signed by Jacob H. Schiff, Felix Adler, Bishop Greer, Jess Straus, Eugenius H. Outerberg, Dr. Henry Moskowitz, Allan Robinson and Henry Green. At the same time Mrs. J. Borden Harriman was asked to head an auxiliary committee of women, with Mrs. Russell Sage, Mrs. E. H. Harriman and others as members.

Every influential citizen of New York, man or woman, is to be asked to join one or the other of these organizations.

#### THREE MEN ARE DROWNED.

Burlington, N. J.—Three men, cruising in the motor boat Nancy without lights, were drowned, and the fourth, a one-armed man, escaped when the little craft was run down and crushed by the packet John W. Garrett of the Delaware river. The dead men are John Sogin, George Vandine, Jr., and Robert Methling, all of Bristol, Pa. The man who escaped is Charles Taylor, Jr., of this city. He was thrown across the bottom of the wrecked craft and managed to remain afloat until rescued by the crew of the freight steamer.

#### IS SLAIN BY COUNTRYMEN.

Steubenville, O.—James Infino, 40 years old, a night tender in the Cleveland & Pittsburgh railroad yards below Mingo Junction, was shot six times and killed by two Italians. The murderers escaped on a Wabash westbound train. It is said the slayers had learned where Infino had \$1,000, his savings, hidden. They took it. Infino was to go back to Italy next week to his family.

#### SAVES FOR TRIP TO IRELAND.

Chicago.—While in Chicago for a few hours on his way to Ireland, Dennis Deasy, 40 years old, a farmer from Muskegon, Mich., was robbed in a saloon of draft for \$3,500, the bank of England, \$40 in currency and a gold watch and chain. He told the police he had been saving for years to get sufficient money to take a trip to Ireland.

#### NINE BOY SCOUTS DROWNED.

London.—Nine boy scouts were drowned by the capsizing of a cutter of Sheppey Island. A large party of boy scouts were proceedings at the time to their summer camp on the island.

#### CINCINNATI MARKETS

Wheat—No. 2 red \$1.04@1.07, No. 3 red 95@1.13, No. 4 red 86@98c.

Lambs—Extra \$7.75@8.25, good to choice \$6.10@6.65, common to fair \$4.25@5.25, yearlings \$4@5, stock ewes \$5.25@4.25.

#### YOUTH CALLS FOR HELP.

Laporte, Ind.—Thinking that he was joking when he was calling for help, companions of Neil Kistler, 18 years old, failed to go to his aid, and he was drowned in Stone Lake here. A score of boys were on the shore when Kistler ran from them and made a dive into the water. Before he knew it he was beyond his depth. Lester Garwood, a companion, got to him as he sank, but was unable to save him. The dead boy was a son of George Kistler, a business man.

JOHN W. BAIN

Secretary of the Blue Grass Fair, Lexington, Ky.

KENTUCKY VOTERS SHOW LITTLE INTEREST IN ELECTION.

Contests in Only Four Districts. Only 346 Votes Cast in Jefferson County. Helm Wins in Eighth.

Frankfort, Ky.—Notwithstanding the fact that Kentucky had its first opportunity Saturday to vote in a state-wide primary the smallest number of votes ever recorded in a similar political event was cast.

Throughout Kentucky's 11 districts he balloting was listlessly perfunctory, and about 10 per cent of the total votes was cast. In only four districts were there contests, and even these the usual interest was lacking.

Only 346 voted during the day in Louisville and Jefferson county.

In the First District Judge Allen W. Barkley swept the district before him, and won by a majority of 4,000.

He carried Livingston, the former home of Judge John K. Hendrick, by 1, and eight other counties. Denny P. Smith was victorious in only four other counties. Judge Barkley's nomination assures him of election.

One of the most interesting contests in the state was that in the Third District, where R. Y. Thomas, of Muhlenberg county, and John S. Rhea, of Logan, were contenders.

So heated was the contest that a recount of the ballots will be necessary to determine the victor.

In the Fourth District, where J. C. Thompson, of Washington county, and J. B. Whittinghill, of Beckenridge, Republicans, were contestants, Whittinghill is the victor by a comfortable majority. There was no Democratic contest in this district.

In the Eighth District Congressman Harvey Helm won a notable victory for renomination at the hands of the Democrats when he defeated Judge A. Sullivan by a majority of over 7,200. Helm carried every county in his district, including Sullivan's home county of Madison, which gave a majority to the Lincoln county man of over 300. Lincoln county gave Helm 1,652 majority. No trouble of any kind was reported at any point in the state.

SWIMMER IS DROWNED.

Companions Were Near at Hand But Did Not Notice Plight of Unfortunate Man.

Frankfort, Ky.—With swimmers all around him, June Rucker, 25 years old, a section hand on the L. & N. railroad, drowned in Benson creek, near Gandy bridge. His body was not recovered for three hours afterward.

Rucker and several members of the section crew, after eating their midday meal, went swimming. It is supposed Rucker was seized with a cramp; but his companions did not observe his plight until it was too late to render assistance. It is very deep where he went down, and although the other swimmers dived until they were exhausted, they found no trace of him. Then assistance was summoned, and the creek was dragged and the body brought to the surface.

It was taken to Coroner L. S. Graham's undertaking establishment and prepared for burial. Rucker was married, but had no children. He lived in Belknap.

OLD CITIZEN PASSES AWAY.

Versailles, Ky.—John M. Wasson, 88, one of the oldest and most prominent citizens of this community, died at the home of his son-in-law, S. C. Nickols, near Versailles. His death was the result of injuries he received last September, when he fell from an upstairs porch to the sidewalk below, a distance of about fifteen feet. He had been confined to his bed most of the time since. Previous to this accident he was a very active man. Mr. Wasson was born at Leesburg, Harrison county, Ky., July 15, 1824.

PROMINENT CITIZEN IS DEAD.

Shelbyville, Ky.—Hiram F. Bohan,

who served one term as sheriff of Shelby county and two terms as a probate, died at his home in Bagdad of cancer. An operation was performed in April, but the results were not satisfactory. Since that time he had been gradually sinking. Mr. Bohan was in his sixtieth year. He served during the war in the Confederate army and had been one of the most influential men in the county.

FARMERS' STORE AT CARLISLE.

Carlisle, Ky.—The Farmers' Union

Mercantile Co., organized by the Farm

ers' union of Nicholas county, is open

ing a store here, with Simon Kenton

as manager. R. B. Brierly, of East

Union, is president, and George M.

Wilson, of Carlisle, is secretary and

treasurer.

YOUTH CALLS FOR HELP.

Laporte, Ind.—Thinking that he was

joking when he was calling for help,

companions of Neil Kistler, 18 years

old, failed to go to his aid, and he was

drowned in Stone Lake here. A score

of boys were on the shore when Kistler

ran from them and made a dive

into the water. Before he knew it he

was beyond his depth. Lester Garwood,

a companion, got to him as he

sank, but was unable to save him.

The dead boy was a son of George

Kistler, a business man.

#### FATAL ACCIDENT TO BOY.

Whitehouse, Ky.—Israel Tackett, 16

son of Wilson Tackett, of Millstone

camp meeting grounds, in Mount Olive,

from August 14 to 25. During the

assembly the annual convention of the

Bible schools of the churches of the

Twelfth district, composed of the

counties of Fleming, Bracken, Mason

Robertson and Lewis, will be held

Among the speakers will be W. E.

Frazee, of Louisville, state superin-

intendent of Bible schools; the Rev. W.

H. Books, a noted evangelist of Indiana,

and the Rev. H. L. Calhoun, of Lexington.

FINE HORSE IS SOLD.

Versailles, Ky.—James L. Gandy & Son

of Highland Place farm, sold their five

year-old chestnut show mare, Lulu Lo-

gan, by Emerald Chief, to Wm. Bush of

Michigan, for \$1,000.

KILLED LARGE BLUE CRANE.

Maysville, Ky.—Clarence Lunsford

of this county, killed a blue crane that

measured six feet from tip to

### PERSONAL

John Benton is here this week.  
Mrs. J. W. Baker continues very sick.

Bragg Thompson is here for the fair.

John D. Miller is at home for the fair.

J. C. West was in Lexington, Wednesday.

Robert Taylor who has typhoid fever is improving.

Miss Willie Benton is the guest of Miss Sadie Richards.

Judge R. G. Williams is here from Covington, for the week.

Mrs. U. G. Baker has been very sick for two or three days.

Shirley Tate and Robert Harry Miller, are at home for the fair.

W. T. Houk and family are here for the fair and visiting relatives.

Mr and Mrs. M. C. Williams are here from Somerset, for the fair.

O. R. Hancock of the Kay Pee Co. was up from Pine Hill, during the week.

William Owens' daughter who has consumption, shows but little improvement.

Misses Marie and Bertie Brock are with their sister, Mr. Albright during the fair.

Miss Sadie Moore has returned from a few weeks visit in Berea and Madison county.

Mr. and Mrs. L. E. Houk are with Mrs. Houk's parents, Mr. and Mrs. S. H. Martin.

Mr. and Mrs. Tom O'Mara, of Nashville, are with relatives and friends for a few weeks visit.

Miss Sadie Richards has returned after a visit of several weeks, to friends in the northern part of the state.

Robert Harry Miller is home for a few days, from Morristown, Tenn., where he holds a lucrative position, as pharmacist.

See A. M. Hiatt and Walter Robins, were up from Brodhead, Tuesday boosting Brodhead fair, which begins next Wednesday.

James Houk and daughter Thelma of Jamestown, Ind., and Mr. and Mrs. Elmer Honk, of Kettle Island, are with relatives here and attending the fair.

Mrs. L. B. Adams has returned from California, and reports a most delightful trip. She visited San Francisco, and on her return stopped at Yellow Stone National Park

### LOCAL

One week from next Monday is circuit court.

If you are in arrears for subscription, the Signal man, who is on the grounds would be awfully glad to write you a receipt for the amount.

The officers and directors of the Mt. Vernon Fair are entitled to much credit for the arduous work done in their efforts to give a successful fair but to W. M. Bullock, the wheel horse of the whole team, is due the greater praise for the part he performed in the undertaking. So closely has he watched and pushed the work since its inception last January that we hardly believe he has put in a dozen full nights sleep since the starting of the subscription paper for stock. The SIGNAL votes him the blue ribbon on the successful accomplishment of the desired and by his energetic pushativeness. Tie the blue on him and arrange for the next ring.

### FAIR NOTES.

Remember next week is Brodhead fair.

The pike to the fair ground is the greatest blessing of the age.

This is fair week and everybody from the youngest to the oldest are doing the fair.

The merry-go-round is one center of attraction.

Who said Mt. Vernon fair would not be a success?

A complete list of premium awards will appear in our next issue.

There are forty of Kentucky's best race and show horses on the grounds.

Mt. Vernon Fair certainly has some live wires for its officers and directors.

Wm. Bullock has worked day and night and to him is due much of the credit.

Marcum, of Montecello has his pacing stallion and two runners on the ground.

The floral hall display is immense. It has never been surpassed in Southern Kentucky.

The high diver gave two successful performances Wednesday. The same for Thursday and Friday.

What about 2000 people for the first day of the first fair ever held in Mt. Vernon. That is going some.

E. R. Gentry, the secretary, is certainly out to his job and is delivering the goods to the satisfaction of all.

The Kay-Pee works at Pine Hill suspended operation and attended the Mt. Vernon Fair, Wednesday, in full force.

Mr. D. E. Davis was here for a few hours. Mr. Davis expects to buy property here and return to Mt. Vernon.

Mack Hughes is here from Harrodsburg, with five good ones. Mack is one of Kentucky's best horsemen.

The President C. C. Davis has done nothing but work and talk fair for weeks and the reward is a crowning success of the first year's exhibit.

Henry Trainer the veteran race horse man, is here with his partner, Mr. Bromley, with a nice string of running, trotting and show horses.

A little fair news this week and not much paper is all we have tried to give our readers. The Signal force wants to see the fair as well as other people.

Mack Hughes won first in Wednesday trotting race with Lady Belfast; W. C. Grouley second with June Light; and Bob Walker third with Mary Booth.

Stock is arriving, and the crowds are gathering for the Great Brodhead Fair. Meet your friends there next week and see the best fair ever held in eastern Kentucky.

Among the colored people, who were formerly citizens of Rockcastle county, attending the Mt. Vernon fair are M. M. and Julia Hyatt, grand daughters of the old time John W. Taylor.

There are visitors here to attend the Fair and home coming, from Virginia, Tennessee, Ohio, Indiana, Illinois, Missouri, Kansas, Texas, Arkansas and Alabama, and possibly from other states.

The concession people are all busy and Uncle Fuller Francisco the best hotel man in the state, is feeding the people right on the grounds and every one is sure to get his money's worth.

The Air Ship arrived at Brodhead Thursday, and the man who will sail above the clouds each day of the fair next week, is expected in Mt. Vernon Friday, to tell the people that he is ready to deliver the goods.

E. A. Chilton, the best fair man in Kentucky has been an indispensable factor in the organization and carrying on of the fair. When he cannot tell you right now what to do, there is not much use of asking the other fellow.

Listen what the concession people and other visitors have to say of the Mt. Vernon Fair. "The Mt. Vernon Fair is a dandy and you can take our word for it, it is a fair that will be talked about after it is over".

As we went to press two days early this week, we were unable to give the vote in the Anderson piano contest. The vote will be given in next issue.

NOTICE:—Lets every body clean up in front of our property, and make as good a showing as possible during the fair, now please don't over look this matter.

Yours every body.

### BRODHEAD.

Next week is the fair and we are beginning to wonder if the property owners will have the weeds cut along their walks. We are expecting more people to be in our town next week than ever before, and we should have enough pride about us to have our walks banked, the weeds cut, and all the old rubbish removed that has been an eye-sore for so long. Let's get busy and have our little town looking better than ever before.

Attorney E. R. Gentry, secretary of the new Mt. Vernon fair; and his estimable wife, were in town Friday. "Ed" was boasting the fair and endeavoring to show the people that Mt. Vernon was going to have the best fair in its history, and from the number that will attend we are satisfied that he succeeded in convincing them that he is right.

Miss Annie Tombs, of Danville, was the guest of Mr. and Mrs. J. E. Wallin last week. —Mrs. D. R. Thompson, of Maysville, was the guest of Mrs. Laura Cable and other relatives here this week. —Mrs. Maggie Davis, of Nicholasville is the guest of her sister, Mrs. R. H. Hamm.—Mr. and Mrs. J. M. Owens were in Mt. Vernon last Sunday between trains, the guests of Mr. and Mrs. G. F. Sutton.—Miss Essie Pike, of Livingston, is visiting relatives here this week. —Mrs. Ed Sprout will assist her father, F. Francisco, with the dining table at the Mt. Vernon fair. —Mr. and Mrs. W. P. Rigsby, of Pineville, are with Mr. and Mrs. John Robins this week. —Bauer Carson, assistant cashier of the Tellico Bank & Trust Co., Tellico Plains, Tenn., is with his parents, Mr. and Mrs. W. A. Carson, this week. —Miss Elizabeth Vermillion, of Danville, is the guest of her cousin, Elizabeth Tharp, this week. —John E. Evans, traveling salesman for Colgate & Co., was here Sunday and Monday. —Wade H. Luce, of Crab Orchard, was here Monday and Tuesday. He was accompanied home by Mr. and Mrs. R. G. Wilmott.—Rosco Pike is at home this week and will remain here until after the fair. —Mrs. Dud Holmes, of Crab Orchard, was here with Mrs. J. W. Tate this week. —Mr. D. R. Sowder, who has been visiting relatives in Paint Lick, is in town this week. —Mr. and Mrs. W. P. Rigsby was with Mr. Rigsby's parents near Crab Orchard the first of the week. —W. H. Anderson was in Crab Orchard, Sunday. It seems that there is considerable attraction in Crab Orchard for Henry, and our people are beginning to wonder what the result will be.

Miss Minnie Hiatt is suffering from a severe bronchial trouble this week. —Walter Robins and A. M. Hatt were in Mt. Vernon Tuesday, advertising the Brodhead Fair. —Ezra Shivel, section foreman at Whitewood, was here between trains Sunday. —Mrs. O. A. Frith is with her parent, Mr. and Mrs. A. Pennington, in Livingston this week. —Mrs. Jessie Rigsby, John Robins and little daughter Mildred were in Crab Orchard Sunday afternoon. —Miss Elizabeth Storm returned home Tuesday, after spending several weeks with relatives and friends in Dayton and Cincinnati, Ohio. —Miss Lettie Lusk of Corbin, is the guest of Mr. and Mrs. J. M. Roberts this week.

—A great many people seem to think that the much talked of Air Ship for the Brodhead Fair, is just a scheme to get out a big crowd. We wish to say that the Air Ship arrived Thursday and will be at the Mt. Vernon fair Friday to tell the people that he will be on hand each day of the fair next week.

If you are a "Doubting Thomas" about the Air Ship being at the Brodhead Fair next week, go to Brodhead Saturday, and see for yourself. The man and air ship is there to.

Cuts and bruises may be healed in about one-third the time required by the usual treatment by applying Chamberlain's Liniment. It is an antiseptic and causes such injuries to heal without maturation. This liniment also relieves soreness of the muscles and rheumatic pains. For sale by Chas. C. Davis.

NOTICE:—To tax payers, your tax for 1912 are due. Please call and settle at once, and save cost. The penalty will be added as the law directs.

J. T. NICELY,  
Sheriff,  
Rockcastle County.

Capon are profitable.

Pack all fruit carefully.

Cows need pure, fresh water.

There is always a demand for turkeys.

Oats and peas will not inoculate ground for alfalfa.

No ewe should be bred until she has reached maturity.

Concrete floors in the cow stables are sanitary and easily cleaned.

The size of an apple can be influenced to quite a large degree by picking.

Don't let the cows out in the storms to stand around. It doesn't pay.

The colder the milk when separated the greater the loss of fat in the skim milk.

The cows that produce the largest amounts of butter fat do it most economically.

The calves should by all means be kept in clean, well-lighted and ventilated stables.

A proper kit for farm work is about as handy a thing as the average farmer can buy.

A ten-cent bolt now may save a dollar's worth of time when the rush of work comes.

You cannot fatten a brood sow and fatten a hog alike and make the best success of both.

A gallon of cream testing 25 per cent. should churn a little over two pounds of butter.

The object of cow testing and keeping record is to improve the herd and increase the output.

Frequent stirring of the soil is said to be a good preventive of rust forming on the cultivator.

Look out for the potato bugs on the tomato and eggplant plants. They prefer them to the potatoes.

For sandy land the mammoth red clover has proved superior to alsike or the medium red varieties.

A good night pasture is the cow's delight, and a delighted cow is more profitable than a discouraged cow.

If the soil leaves the plowshare shiny and wet, wait a day or two. Wet plowing makes a cloddy ground.

In looking for an occupation that will return pleasure as well as profit take up the breeding of fancy poultry.

Guessing at the quantity of salt to put in butter is a little risky. An ounce to the pound is about the right proportion.

Nurse the young clover and the alfalfa; plan more of both another season, also a large acreage of root crops and pumpkins.

A hen that goes around with her mouth open is not a comfortable hen; she is too warm. Give her a place to sit down and cool off.

Ventilation in the chicken house is a very important consideration, and the health of the fowls in a great measure depends on it.

The value of cowpeas as a stock feed crop is now firmly established and will grow in favor as they become more generally known.

Get rid of male birds except those to be kept for breeding. They are star boarders and eat up the profits of the flock.

Never pasture too closely. Leaves are essential to plant growth, and enough should always be left to promote a good growth of plants.

Keep away from the corn roots when giving the plant the last cultivation; they will be needed in further developing a good crop of corn.

Begin to check the colt early if you would have an easy time with the work and a well-broken horse. A two-year-old is easier to break than a four-year-old.

If you intend to plant a few choice trees next spring, dig large holes for them this fall, fill them with manure, removing it next spring and filling in up to the desired depth for the tree.

The farmer who raises fruit for his own family should have a much larger variety than the commercial orchardist because the latter must produce enough of each kind to ship to advantage.

A stumbling habit may be caused by poor shoeing, or it may be caused by ignorant or careless hitching. Too tight checking is often the cause. Sometimes a harsh bit with a tight check rein will destroy the balance, and the horse is liable to fall.

While the hog is a debt payer, it is necessary for the breeder, farmer or feeder to manage so as to make the greatest amount of money at the least cost in the quickest time. To do this there is nothing of more importance than feeding alfalfa.

NOTICE:—I will be at the Mt. Vernon Fair on Thursday Aug. 8, to buy aged mules from 3 to 6 years. Anyone having a good mule for sale please meet me there on that day. J. M. CRESS.

And everywhere you go you'll see a lot of well-dressed fellows and you'll want to look as well as they do.

## YOU CAN BE

one among the well-dressed fellows if you'll come to this store for your new Clothes, Shoes and Furnishings

You'll like our clothes and our prices too.

## Housework Drudgery!

Housework is drudgery for the weak woman. She brushes, dusts and scrubs, or is on her feet all day attending to the many details of the household, her back aching, her temples throbbing, nerves quivering under the stress of pain, possibly dizzy feelings. Sometimes rest in bed is not refreshing, because the poor tired nerves do not permit of refreshing sleep. The rest need of weak, nervous women is satisfied by Dr. Pierce's Favorite Prescription, and as Mrs. Briggs and others testify:

### It Makes Weak Women Strong and Sick Women Well.

This "Prescription" removes the cause of women's weaknesses, heals inflammation and ulcer. Ion. it tranquilizes the nerves, encourages the appetite and induces restful sleep.

Dr. Pierce is perfectly willing to let everyone know what his "Favorite Prescription" contains, a complete list of ingredients on the bottle-wrapper. Do not let any druggist persuade you that his unknown composition is "just as good" in order that he may make a bigger profit.

Miss BRAZIL, Bridgeport, Conn., writes: "I am a widow, for a long time, a victim of intestinal disease and constipation with woman's ills, for which I was almost unable to do anything. I think I am safe in saying that there are no remedies in the world like Dr. Pierce's Favorite Prescription. I am taking Lotions, Tablets. I am now enjoying the best of health, and thank Dr. Pierce for his wonderful medicines which have done me a world of good."

Dr. Pierce's Pleasant Feleets regulate liver and bowels.

## NOTES from MEADOWBROOK FARM

By William Pitt

All animals need salt.

The hog is a debt payer.

Every farm should have a silo.

A silo built of concrete will preserve silage well.

Milk and corn meal makes a fine forcing feed for flocks.

A good time to cull out inferior birds is when the market is up.

The finer the soil, the better the vegetables, both in quantity and quality.

Feed the soil if you would have the soil feed you, apples forcibly to worn-out lands.

Grape vines require frequent shallow cultivation throughout the entire season.

In setting an orchard stick to the proven varieties. Let some one else do the experimenting.

The thermometer must be used as regularly in the dairy during the summer as during the winter.

At this time of the year care should be exercised in housing the pullets that are to be the winter layers.

Gooseberries require a cool situation, with plenty of air and moisture, and should be partially shaded.

It requires two-thirds of a full ration to keep a cow in fair condition before there is any milk production.

A blackish built mare with a large barrel on short legs is likely to produce a better foal than the tall, leggy kind.

Capon are the most profitable part of the chicken business, just as steers are the most profitable part of the cattle industry.

Frequently disinfecting the hen houses, coops and drink and feeding dishes is likely to save lots of trouble from disease.

It does not require any great ability at figures to show that there is a treat waste in selling hogs when they are but half fed out.

Truck crops suffer least from fungi in seasons that open with a cool spring; and end with a very hot summer, with rainfall below the average.

Raspberries and blackberries should be mulched with straw or litter after they have been shallow cultivated two or three times in the spring.

If the onions are not growing well a little nitrate of soda or hen manure broadcast, before or during a rain, often helps them to fill out.

You don't have to take the frost out of the bits these days, but you might make the fire out of your temper and much suffering in the horses mouths.

Sugar-beet growing means more than the mere profits from growing beets. It introduces a higher type of agriculture and the crops raised in rotation are better.

At this season cows should be dry so as to avoid milking during fly time and excessive heat. Pastures are hot, too, and a dry cow can stand better than a good milker.

It pays to whitewash, ventilate and properly light stables; to brush and curry cows; to use clean and well covered utensils, to cool milk quickly and to have a cool place for the milk.

Alsike clover is a perennial and can be grown on ground that is too low and moist for the medium red or mammoth, but it is grown equally well on high ground.

Men who are inexperienced in alfalfa growing should force on their attention the important lesson that it pays well to put a little labor on the surface after removing each crop.

In selecting eggs for hatching much care should be used. Select only nice brown, well-formed and good-sized eggs from healthy stock. Keep them just cool and incubate them as soon as possible.

When buying pedigree stock the wise buyer will study the pedigree of the man who bred the animal as carefully as the animal itself. A good reputation is a valuable asset when selling registered animals.

From 15 to 18 pounds of hay should be given a horse during the day. This is equivalent to five or six pounds to a meal. But it is not well to give so much at noon or morning, as they have not the time to eat it, and going to work right away prevents proper time for digestion.

It is very important that the pastures of the dairy cows should be kept free from all weeds or plants which will impart a bitter or disagreeable taste to the milk or butter. Ragweeds, especially, should be mown off every time they start up.

SEEMED TO GIVE HIM A NEW STOMACH.

"I suffered intensely after eating and no medicine or treatment I tried seemed to do me any good" writes H. M. Youngs, Editor of The Sun, Lake View, Ohio.

"The first few doses of Chamberlain's Stomach and Liver Tablets

gave me surprising relief and the second bottle seemed to give me a new stomach and perfectly good health". For sale by Chas. C. Davis.

CASTORIA

Mrs. J. E. Cox, Joliet, Ill.  
50c AND \$1.00 AT ALL DRUGGISTS.

Keep the pigs growing.

Look out for chicken lice.

Order crates and boxes early.

Timely harvesting is necessary.

Gather all the brush from the orchard and burn it.

When cream appears moldy on the surface it is overripe.

You are safe to buy an old sire, but don't get him very fat.

An orchard neglected for one year virtually puts it back three years.

Early turkeys are what pay, and these can only be had from early laid eggs.

Plenty of exercise is one very important item for keeping a flock healthy.

The use of silage for sheep feeding purposes has been tried out to a limited extent.

There is no reason why potatoes should not be cultivated with a riding corn cultivator.

If you want a fine, early yellow peach, put two or three Triumph trees in your next nursery order.

Some tell the sex of the guinea fowl by its wattles. Those of the male are double the size of the female.

A liberal application of ashes to the soil where cabbage plants are grown is a preventive of club root.

Condiments that stimulate egg production are very much like anything that stimulates a human being.

An orchard will live longer, bear better and be more profitable by being well cultivated and enriched.

Good fruit can be raised only with care and attention given to spraying, pruning and generally good care.

Gooseberries require a cool situation, with plenty of air and moisture, and should be partially shaded.

It requires two-thirds of a full ration to keep a cow in fair condition before there is any milk production.

A blackish built mare with a large barrel on short legs is likely to produce a better foal than the tall, leggy kind.

Capon are the most profitable part of the chicken business, just as steers are the most profitable part of the cattle industry.

Frequently disinfecting the hen houses, coops and drink and feeding dishes is likely to save lots of trouble from disease.

It does not require any great ability at figures to show that there is a treat waste in selling hogs when they are but half fed out.

Truck crops suffer least from fungi in seasons that open with a cool spring; and end with a very hot summer, with rainfall below the average.

Raspberries and blackberries should be mulched with straw or litter after they have been shallow cultivated two or three times in the spring.

If the onions are not growing well a little nitrate of soda or hen manure broadcast, before or during a rain, often helps them to fill out.

In transplanting plants from pots to the open, water them freely the day before they are re-potted.

In making poultry pay much depends upon your ability, your experience and your aptitude in the work.

A chicken's stomach is not made of iron, and the same diet day after day harms them as much as it does a human.

Under-sized pullets are not profitable. There will be some scrubs developed in the best of strains. Get rid of them.

Poultry raisers can learn much by attending the farmers' institute meetings held in their section of the different states.

A good grain mixture for chicks is made up of two parts cracked corn, two parts wheat, two parts Kafir and one part millet.

Keep track of the chicks that feather out early. The chances favor the birds becoming the most profitable ones to keep.

A tablespoonful of baking soda placed in the drinking water two or three times a week will prevent bowel trouble in the chickens.

It is always a good plan to use plenty of seed in planting cucumbers, cantaloupes, melons, etc. The hills may be thinned out later.

Give the new-born calf a touch of fly repellent on that spot on the back where the hair parts. The flies like to feast right there.

As the weather gets warmer be sure that all brood coops are well ventilated at night, so that the air will be pure and cool within.

Poultry "systems" requiring close confinement of the flock and a large amount of personal attention are out of place on a general farm.

To get the flock as a whole in laying condition in the time required by the breed or variety the fowls must be properly grown from chickhood.

Twenty acres of corn put into a silo is said to be worth more than thirty acres put in the crib. This is quite an item, especially when feed is so high.

Industrial hens are the kind to keep, it matters not what the breed. The lazy hen is unprofitable. It is the industrious hen that lays the eggs.

If any fruits or vegetables are marketed, see that they are put up in clean, neat and well-graded packages. They will sell quicker and at a better price.

The pig that can be raised under ordinary conditions and good care, and made to weigh from 250 to 300 pounds quickest, is the most profitable sized hog for the farmer to keep.

It is very important that the pastures of the dairy cows should be kept free from all weeds or plants which will impart a bitter or disagreeable taste to the milk or butter. Ragweeds, especially, should be mown off every time they start up.

It is a toss-up between milking out in the cool yard where mosquitoes and flies pester the cows and the tail works like perpetual motion, and the darkened barn, with a row of hot cows adding to the heat of the day.
